Place:

Kemerovo, Russia

Remote work or ready for relocation

Linked 

Skills

- Python:
pandas, psycopg2, Airflow, Jupyter Notebook.
- SQL, PostgreSQL
- Docker
- VPS, bash
- Git
- Tableau

Projects

[Tableau Public](#)

The interactive dashboard helps you choose a city (country) for relocation.

I developed a data warehouse, created an ETL from various sources, and displayed them on Tableau.

All the above-mentioned tools are used.

A detailed description of the project is on [GitHub](#)
